Taxation of farming income

Background
Section 26(1) stipulates that the taxable income of any person carrying on pastoral, agricultural or other farming operations shall, in so far as the income is derived from such operations, be determined in accordance with the Act but subject to the First Schedule. The First Schedule deals with the computation of taxable income derived from pastoral, agricultural or other farming operations.

The taxable income from farming operations is combined with the taxable income from other sources to arrive at the taxpayer’s taxable income for the year of assessment.

The First Schedule applies regardless of whether a taxpayer derives an assessed loss or a taxable income from farming operations. The Schedule may further apply even after farming operations have been discontinued [section 26(2)]. Section 26 and the First Schedule are applicable to game farming since it comprises farming operations.

The law

(2) In the case of any person who has discontinued carrying on pastoral, agricultural or other farming operations and is still in possession of any livestock or produce, or has entered into a “sheep lease” or similar agreement relating to livestock or produce, which has been taken into account and in respect of which expenditure under the provisions of this Act
or any previous Income Tax Act has been allowed in the determination of the taxable income derived by such person when such operations were carried on, the provisions of this Act, but subject to the provisions of paragraphs 1, 2, 3, 4, 5, 6, 7, 9, or 11 of the First Schedule, shall continue to be applicable to that person in respect of such livestock or produce, as the case may be, until the year of assessment during which he disposes of the last of such livestock or produce, notwithstanding the fact that such operations have been discontinued.
